TEST REPORT

Applicant	:	DONG GUAN HAOSEN METAL JEWELRY LTD
Address	:	101, 2ND BULIDING, NO. 2, ZHEN RONG ROAD, WU SHA, CHANG AN TOWN, DONG GUAN CITY, GUANG DONG PROVINCE.
Manufacturer	:	DONG GUAN HAOSEN METAL JEWELRY LTD
Address	:	101, 2ND BULIDING, NO. 2, ZHEN RONG ROAD, WU SHA, CHANG AN TOWN, DONG GUAN CITY, GUANG DONG PROVINCE.
The following samples were submitted and identified on behalf of the clients as:		
Trade Name	:	No data available
Sample Name	:	Earrings
Model NO.	:	UNCEH0001
Series NO.	:	UNCEH002
Customer Statement	:	All models are same as the samples except model name and appearance,they have the same structure/circuit.
Sample Received Date	:	Jan.07, 2026
Testing Period	:	Jan.07, 2026 to Jan.12, 2026
Test Requested	:	**Conclusion**
		As requirements by client, SVHC (252 Substances) screening is performed according to No. 1907/2006 concerning the REACH. — Pass
		According to the specified scope and analytical techniques, concentrations of SVHC(252 SVHC) are less than 0. 1%(w/w) in the sample. — Pass
Test Results	:	For details refer to attached page(s).
Revised Statement		N/A

Laboratory Accreditation : IAS Testing Laboratory TL-1329

Signed for and on behalf of HRL

Dylan Chow
Dept Manager

Dongguan Huanren Lab Technology Co., Ltd

All test reports issued by this laboratory are electronically signed using UKEY digital signatures. Reports with missing or damaged e-signatures shall be deemed invalid..

Testing Results:

Sample identity	Chemical Substance Name(s)	CAS No.	EC No.	Results %(w/w)	RL%
--	All SVHC substances (see Chemical list)	--	--	N.D.	--

Note / Key:

1. SVHC = Substances of Very High Concern
2. % = percentage by weight
3. N.D. = Not Detected (<Report Limit)
4. RL = Report Limit
5. ** According to the 5.2. 1 item of the fourth version of ECHA "Guidance on requirements for substances in articles", 2017,the selected test methods only show the existence of certain elements rather than the existence of substances, using additional measurements to screen for the existence and identification of substances in a sample when necessary.
6. # = The test result is based on the calculation of selected element(s) and to the worst-case scenario.
7. Report Results: based on measurements in most cases will identify the chemical constituents in the sample but not necessarily "the substance" which were originally used to produce the article, professional consults, products information,testing processes, features of materials, characteristics of the SVHC and chemical analysis etc to obtain the assessments results according to the 5.2 item of the fourth version of ECHA "Guidance on requirements for substances in articles", 2017.
8. Report Limit: Be obtained from the uncertainty, the 0. 1 % threshold and the ECHA "Guidance on requirements for substances in articles" .
9. In accordance with Regulation (EC) No 1907/2006, any producer or importer of articles shall notify the European Chemicals Agency(ECHA), In accordance with Article 59(1) of the Regulation if:-the substance is present in those articles in quantities totaling over one ton per producer or importer per year; -the substance is present in those articles above a concentration of 0. 1% weight by weight(w/w).
10. Article 33 of Regulation (EC) No 1907/2006 requires supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0. 1% weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, he name of that substance.

Note:

1.The limit of 0.1% (w / w) applies to an article. The results were calculated assuming that the submitted sample was an article. However, the results may not be applicable if the intended use of the sample is a substance or mixture, According to REACH, the definitions of article, substance or mixture are.

i. Article - An object during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition.

ii. Substance - A chemical element and its compound in the natural state or obtained by any manufacturing process.

iii. Mixture (Previously known as "Preparation") - A mixture or solution composed of two or more substances.

2.In articles, any producer or importer of articles shall notify ECHA, if a substance meeting the criteria in Article 57 and is identified in accordance with Article 59(1), if both 1) the substance is present in those articles in quantities totalling over 1 tonne per producer or importer per year & (2) the substance is present in those articles above a concentration of 0.1% weight by weight (w /w) are met. The information to be notified shall include (a) identity and contact details of the producer or importer, (b) the registration numbers(c) the identity of the substance and (d) the classification of the substance, (e) a brief description of the use of the substance and (f) the tonnage range of the substance.

3.In accordance with Article 33 of Regulation (EC) No. 1907 /2006 (REACH regulation)- Duty to communicate in formation on substances in articles, any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in concentration above 0.1% weight by weight (w / w)shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance. On request by a consumer the relevant information shall be provided by any supplier of an article free of charge, within 45 days of receipt of the request.

STATEMENT

1.This report is considered invalid without approved signature, Detection special seal or Report seal;

2. The sample(s) and sample information was/were provided by the client who should be responsible for the authenticity which HRL hasn't verified;

3. The result(s) shown in this report refer(s) only to the sample(s) tested;

4. In case of any discrepancy between the English version and Chinese version of the testing reports(if generated),the Chinese version shall prevail.

5. When the report without qualification seal, the testing data and result(s) in this reports(are) just for scientific research, education, internal quality control and product development etc.

6.Unless otherwise specified, refer to ILAc-G8:09/2019 and use the binary decision rule of simple acceptance (W=0) for conformity assessment.

7.This test report is issued by the company subject to its General Conditions of Services printed overleaf or available on request and accessible at www.Labsoon.com. Attention is drawn to the limitations of liability, indemnification and jurisdictional issues defined therein. Unless otherwise stated the results shown in this report refer only to the sample(s) tested. Without prior written permission of the company, this test report cannot be reproduced, except in full.
